## SUMMARY

I specialize in full-stack web and app development with a focus on UI/UX design. With a problem-solving approach, I develop functional, user-centered solutions that align with business objectives. I am experienced in translating ideas into efficient, scalable applications that enhance user experience and deliver measurable results.

---

## EDUCATION

**Bachelor of Technology in Artificial intelligence and machine learning** **NOV 2022 - 2026**  
SNS college of technology - CGPA : 7.9

**Higher Secondary education** **SEPT 2020 - JUN 2022**  
AVB MATRICULATION HIGHER SECONDARY SCHOOL - HSC : 83%

---

## PROJECTS

**BuyMyTix | Secure Ticket Resale Platform** **JAN 2025**

- Developed a web application for buying and reselling tickets for movies, concerts, and sports events. The platform includes secure transactions, user authentication, and social sharing features to enhance discoverability and engagement.
- Tech Stack: TypeScript, React, Express.js, MongoDB

**Sync Stream | Stream Media with Friends in Real-Time** **NOV 2024**

- Built a web application enabling users to stream torrent-based media content simultaneously with friends, offering synchronized playback and interactive features natively increasing **100%** in video quality.
- Tech Stack: Type Script, Node JS, Web RTC, Web Sockets, React, Mongo DB

**Hoplite | Modern workout tracker with ai chat bot** **MAR 2024**

- Designed the user interface and developed both front-end and back-end functionalities using Dart, Flutter, Hive DB & Gemini API
- Implemented progress tracking and analytics features, allowing users to implement progressive overload, now adopted by **15+ members**, enabling quicker iterations based on real-user data and enhancing challenges.

**Attentive Aid and Mentor Square | Student attendance manager apps** **APR 2023**

- Achieved up to a **200%** increase in time efficiency over traditional methods .
- Designed the user interface and developed both front-end and back-end components using Flutter, Express JS, Figma, BLOC and MySQL with BLOC architecture.

---

## CERTIFICATIONS

- Mindful AI workshop **MAR 2023**
- Web development course - Prep Insta **NOV 2023**
- Participated in 24 hr hackathon challenges **OCT 2023 & APR 2024**
- Intern as web-developer at zed digital - cbe **JAN 2024**

---

## SKILLS

- Languages** : Java, Dart, JavaScript (ES6), TypeScript, C
- Technical skills** : Flutter, React, Express JS, PostgreSQL, Figma, MongoDB, Hive, Redis
- Industry knowledge** : Responsive Design, Cross-Platform Development, API Development & Integration, Agile & Scrum Methodologies, Version Control (Git/GitHub), System design.
